

CONSULTANCY, IMPLEMENTATION AND MAINTENANCE OF AN INTEGRATED ASSET, ENDPOINT AND SECURITY SOLUTION

TUC RAIL is a Belgian railway engineering and project management office specialized in railway technology. In Belgium, where TUC RAIL is the only office of this type, it works mainly for the Build Department of Infrabel: it ensures the Project Management of major infrastructure projects, carries out feasibility studies and technical plans and follows the work execution.

THE OBJECTIVE

- Implementation of the fully Ivanti integrated Unified IT solution including :
 - Asset Management
 - Unified End Point Management
 - Security Management
 - Integration with the existing Ivanti Service Management solution
- Aftercare, support and further evolution of the solution

WHY ECONOCOM?

- Only provider that offers one fully integrated solution
- Qualitative and convincing project approach and timing
- One license (Enterprise License Agreement) for the entire Ivanti solution
